

Marina Reserve - Recreational Opportunities Survey

1. Marina Reserve - recreational opportunities

Council is committed to involving the local community in the design of Marina Reserve to accommodate a range of recreational activities and age groups.

Your responses are anonymous - your IP address is not tracked. Only one survey per computer is allowed - if this causes problems for you please contact the Community Governance Unit on 9209 6506.

Questions marked with an asterix indicate those needing to be answered to complete the survey.

Information obtained through this survey and other forms of consultation will contribute to developing the new Marina Reserve Masterplan. Results from this survey will be posted on Council's website when finalised.
