

Parking Permits - pricing

We're proposing changes to Parking Permit pricing to encourage understanding of the true value of Parking Permits and to further manage increasing demand across the City.

WHAT WE ASKED

Should the first Resident Parking Permit be cheaper, and the cost increase cost for extra permits per household?

WHAT YOU TOLD US

61%
of residents

agreed that the first Resident Parking Permit should be cheaper.

WHAT WE PROPOSE

Introduce tiered pricing for Resident Parking Permits (currently \$83 each per annum), based on the number of permits per household:

- 1 \$60 first permit
- 2 \$120 second permit
- 3 \$120 third permit (while available)

EXPECTED OUTCOMES

- 1 Manage and respond to supply and demand in residential areas.
- 2 Promote use of existing parking resources to reduce pressure on local parking availability.
- 3 Encourage reduced car ownership and car dependence and greater use of alternative, sustainable modes of transport.

PROPOSED TIMELINE

Effective 1 July 2021
