## Transport and parking management

### The value we provide

- Support a reliable, safe and well-connected transport system
- Enable people to more easily move around, connect and get to places as the City grows.

### What we do

- Manage parking policy, on-street parking controls and enforcement.
- Maintain our roads, medians and footpaths.
- Plan for and deliver changes to our city's transport network, streets and places to cater for our growing community.
- Increase the range of healthy, safe, connected and convenient walking and bike riding choices
- Partner with the Victorian Government to provide more convenient, reliable, accessible and frequent public transport choices.
- Work with the community to ensure fairest access to parking as a limited and shared resource.
- Harness new technologies and transport options for our community to get around.
- School Crossing Program for the safe and efficient movement of primary and infant school children.

### Why we do it

- To provide residents, workers and visitors with different travel options that responds to Melbourne's population growth, supports Melbourne's much celebrated liveability, promotes people's individual health and wellbeing, and contributes to the City's economy.
- To respond to our limited ability to increase on-street car parking capacity and vehicle movement.
- To act to reduce the safety risk to our community on our streets.

### Activities that support this service

- Appeals Review Administration
- Parking Services
- Maintenance and operations road transport
- Transport Safety Engineering
- Strategic transport

(a) From 1 July 2008, Council recognises any material land under roads that comes in Council's control within the Financial Report at fair value.

### **Our Council Plan 2017-27 priorities**

### Completed

- Develop an Integrated Transport Strategy.
- Deliver the Beach Street separated queuing lane.
- Develop a plan to manage parking as part of the Integrated Transport Strategy.
- Work with Public Transport Victoria and Yarra Trams to deliver a pipeline that will improve place and movement Carlisle Street upgrade.

### In progress

- Deliver an Integrated Transport Strategy.
- Implement projects that create safe, high amenity walking routes.
- Improve the attractiveness of bike riding.
- Plan for and deliver Kerferd Rd safety and streetscape improvements.
- Work with Public Transport Victoria and Yarra Trams to deliver a pipeline that will improve place and movement.
- Deliver program of renewals and improvements to laneways, roads, footpaths and street signage.
- Develop new policies for paid parking, on-street permits and parking provision rates.
- Investigate Council's car parks for future development opportunities.
- Implement clever parking initiatives that help manage parking supply and turnover.
- Expand the on-street network of car share vehicles.
- Integrate land use and transport planning through a review of the Municipal Strategic Statement.
- Implement blackspot safety improvements.
- Work with partners on the St Kilda Junction safety upgrade.
- Complete the streetscape/ intersection upgrade of Wellington Street.
- Improve local community travel choices.
- Progressively review and upgrade disabled parking spaces in commercial areas.
- Review Council's design and technical standards.

### How we are performing

### **Recent highlights**

- Working with neighbouring councils and state agencies to develop a transport response to the COVID-19 pandemic. This included seeking temporary protected bike lanes on St Kilda Road, Beaconsfield Parade and Kerferd Road as priorities for Victorian Government investment. Quick, light touch implementation of wayfinding is being planned as the first step towards implementing additional local bike routes across the City.
- Successfully concluded parking pricing trials and evaluations, resulting in the retention of the seasonal paid parking fee in Fitzroy Street Precinct, Waterfront Place Precinct and Elwood Beach car park.
- Adoption of the Domain Public Realm Master Plan in September 2019 and a commitment by Department of Transport to signalise the Park and Wells streets intersection.

### How we are performing

- Commenced the design of the externally funded Park Street bike link.
- Secured funding from DELWP (as part of Shrine to Sea) to deliver on resident petition related to temporary closure of Montague/Herbert Street crossing over Kerferd Road.
- The new Parking Management Policy was endorsed in February 2020, contributing to the delivery of parking management outcomes in the strategy. Implementation, including advocacy for electronic permits and provision of information on the new permit system to the community is underway.
- Council's Proposed Public Transport Network Map 2028 was finalised for inclusion as Map 3 in Move, Connect, Live Integrated Transport Strategy 2018-28 in June 2020.

### **Recent challenges**

- In response to the COVID-19 pandemic:
  - Introduction of grace periods and reduced services to reflect community expectations and movement restrictions during lock down periods.
  - Advocated to the Victorian Government for temporary protected bike lanes to support additional bike riding for community members choosing not to travel on public transport during the pandemic.
- The COVID-19 pandemic had a significant impact on the delivery of our projects due to reduced ability to consult, budget impacts, and limitations on what work can be done in the public domain.
- Planning and delivery of three of our bike corridors (Move, Connect, Live Action 18) has been delayed. Design of the Inkerman Bike Corridor was slowed due to challenges collecting data and the need to reallocate resource to other projects at this time. Park Street Bike Link (Move, Connect, Live Action 23) was impacted by the inability to undertake consultation on the design and is now planned for early 2021.
- Similarly, inability to consult widely on the Garden City Bike Corridor delayed the project, consultation and construction are both now planned for this corridor in 2021.
- Consultation on new car share spaces was also put on hold due to COVID-19, and as a result the project is not meeting expansion targets set in the Car Share Policy 2016-2021 (Move, Connect, Live Action 36).Similarly, as community facing programs, both our work with schools to support active travel, and our work with the wider community to encourage bike riding have been largely put on hold due to COVID-19 (Move, Connect, Live Actions 16 and 22).
- In March 2020 a trial of shared dockless electric bicycles began in Melbourne, Yarra and Port Phillip (Move. Connect, Live Action 38), and was temporarily suspended in line with government guidance. Work is continuing to resume this trial once it's safe to do so.
- The Wellington Street upgrade project (Move, Connect, Live Action 13) was delayed due to Department of Transport requiring expansion to the scope of the project, with significant cost increase impact. This project has been funded for delivery in 2020/21.

# Transport and parking management

Measure	2017/18 result	2018/19 result	2019/20 result	2020/21 target	Metro councils 2019/20
