

Project Opportunities

Play experiences

- New play equipment unit, compliant with current play standards featuring much-loved play elements from the existing playground, and new, accessible play elements with ramped access.
- New double swing with standard seat and baby seat
- New trampoline and nature play elements
- Rubber softfall matting to areas of most wear

Park amenities

- New accessible pathway linking the reserve entries to the play areas, seating areas, drinking fountain and bin.
- Additional seats with backs and armrests to replace existing bench seating
- New accessible drinking fountain and picnic setting

Natural elements

- Improve the health of the existing large trees by relocating play areas and park amenities away from the base of the trees
- New trees to replace existing trees in poor condition/ at end-of-life (as advised by arborist)
- Native shrub and groundcover planting

Legend

- | | | | |
|--|------------------------------------------------------|--|--------------------------------------|
| | Existing tree to be retained | | 1 Play equipment unit and trampoline |
