

EASTERN RESERVE PLAYSPACE UPGRADE

Seating - relocate one existing timber seat closer to play area.

Rubbish Bins - Install fixed bins with steel bin surrounds to accessible locations including picnic/BBQ area.

Existing Fence

Natural Play

Inclusion of natural elements such as timber logs, smooth boulders and plants within play areas.

Older Children & Accessible Play Area

Swings, roundabouts and motion play equipment with rubber under-surfacing for disability access.

Existing Shelter - Replace sections of roof sheeting with clear 'skylight' sections to improve light. Add guttering to roof. Remove asphalt surface and replace with new. Install new picnic table with seats. Relocate bench seats within reserve. Install new BBQ unit.

All-Ages Play area - Climbing net or timber structure suitable for wide age range and/or slides. Remove & relocate existing swing set; return area to grassed open space

Fencing - extend existing fence to remove potential road access hazard for children. Close any gaps in fence around existing toilet block location.

Drinking Tap - Install drinking tap in close proximity to shelter and footpath.

Junior/Toddler Play Area

Age specific play equipment such as swings with toddler seats, role play and junior climbing items
