

- LEGEND**
- Existing tree trunks
 - Proposed new trees
 - Softfall mulch
 - Proposed seat
 - Proposed garden
 - Landscape rocks
 - Rubber surfacing
 - Sand
 - Hard paving
 - Granitic gravel
 - Logs & steppers
 - Timber decking

- 1 Proposed small picnic area, with potential for fluttering leaf canopy over. Decorative stone leaf paving and new tree planting.
- 2 Carousel / roundabout with seats
- 3 Single point support basket swing
- 4 Potential for tree sucession planting around edge of space
- 5 Bench seats - some with arms or backs. Two with narrow cafe style tables
- 6 Acorn sculptures at ground level
- 7 Double swing frame with Joey seat for an adult and child to swing together, and toddler seat
- 8 Double swing frame with strap seats
- 9 Net-based agility equipment, with steel posts that mimic grass leaves, and natural timber posts
- 10 Sensory leaf panels separate swing area from path
- 11 Bike racks & twin bin enclosures
- 12 Sand coloured porous asphalt raised to top of kerb to improve accessibility and tree health
- 13 Drinking fountain (relocated from lawn)
- 14 New oak to maintain symetry of tree canopy
- 15 Proposed circular link path defines open areas of lawn and provides access and supervision spaces for both areas of playspace, and cohesive access to Tennis Club building
- 16 Potential for botanical mural on side of building
- 17 Sandpit with sand sieve, accessible digger and raised accessible sand play table. Paving adjacent to lawn patterned with leaf imprints.
- 18 Upper level freestanding treehouse, with wooden pommel climber, spiral slide, linked to main treehouse with rope bridge.
- 19 Freestanding accessible treehouse with structure under deck to resemble branches of trees, like fan-vault. Access via ramp, steps and enclosed ladder through deck. Includes lounging net, double open slide and various entry points to ramp.
- 20 Inground round bouncers
- 21 Natural balancing elements through low garden bed planting to protect trees. Include leaf decks and fairy log.
- 22 Leap frog mounds (synthetic coated) link area between turnover bars and grass-stalk hammock
- 23 Green toned softfall rubber provides accessible path
